Total			\$1320.00	

It is possible to begin using kinesiology with good effects after just the beginning workshops. What you learn in the initial TFH and NLK workshops gives you very useful skills and techniques that are easily used with friends and family members.

All other course books and material costs are included in the course fee. Total for TFH and NLK including 2 workbooks is \$4530.00. For people booking in for the complete set of TFH or NLK workshops you are encouraged to buy a practical work book (\$120). Apart from being a systematic way of practising the course work, completed workbooks bring you kinesiology hours that are accredited with the AKA and the Diploma of Kinesiology. Marking fees are included in this price.

Courses are available to be held in country centers for 8 or more participants.

These Kinesiology workshops give you enough practical hours to become a registered practitioner with the AKA Australian Kinesiology Association. For more information see www.akakinesiology.com.au
